# Create On Call Order - Update to Quantity Field (16552) [Enhancement]

Last Modified on 03/22/2024 2:49 pm EDT

The logic governing the Quantity field in 'Create On Call Order' has been updated to display either null or '1' depending on the service quantity.

- Null/blank is displayed if the service quantity is greater than "1."
- "1" is displayed if the service quantity is equal to "1."

Pathway: *Accounts > Customer Service Screen > Create On Call Work Order*
