

Permissions (System) - Permission Changes - Action Needed (16530) [Enhancement]

Last Modified on 03/22/2024 3:59 pm EDT

The following changes have been applied to permissions:

1. **Permission 92** (Override Work Order Charge Rate) was a duplicate of permission 336 (Edit Charge Code Rate for Work Order) and has been removed.
2. **Permission 326** has been renamed from "Modify Work Order Minimum Amount" to "Edit Work Order Minimum."
3. A new '**View Rates and Pricing for Work Order**' (455) permission has been added to restrict what users can see on the work order. If a user does not have permission 455, the following will be hidden from view, and any permissions allowing the editing of these fields will also be restricted:
 - o Total shown on the Charges tab
 - o WO Minimum field
 - o Vendor Rate
 - o Per Unit column
 - o Minimum Type column
 - o Minimum column
 - o Total column

Actions you need to take:

Currently, any role with permission 88 (View Dispatch) has also received permission 455. It is recommended to review your establishment's roles and remove the permission where necessary.

The screenshot displays the 'PERMISSION SETUP' interface with the 'Operations' module selected and permission 455, 'View Rates and Pricing for Work Order', highlighted. An 'EDIT SERVICE RECORD' window is overlaid, showing a work order for '2 Yard Trash Service'. A red arrow points from the 'Role Permission' button in the background to the 'Charges \$ 65.00' field in the foreground window. The foreground window also shows a 'WO MINIMUM' field and a table with columns for 'PER UNIT', 'VENDOR RATE', 'MINIMUM TYPE', 'MINIMUM', and 'TOTAL'.

GROSS QTY	LABELS	NO CHARGE QTY	CHARGE QTY	UOM	CHARGE CODE	PER UNIT	VENDOR RATE	MINIMUM TYPE	MINIMUM	TOTAL
1			1	each	Front Load Relocate	\$ 65.00		None		\$ 65.00

Pathway: Setup > System > Permission
