

Create On Call Order (Accounts) - Update to Route Selection Drop Down (16535) [Enhancement]

Last Modified on 05/10/2024 2:30 pm EDT

An enhancement has been implemented in the Route selection drop down menu when creating an on-call order or editing a service record. Now, it displays the name of the default driver for the route alongside the route name.

The screenshot shows the 'CREATE ON CALL ORDER' form. The 'ROUTE' dropdown menu is open, displaying a list of routes with their corresponding default drivers. The routes listed are:

- ALVARO - Dave Peter
- COR 101 - Pedro Henry
- COR 102
- COR 102
- COR 201 - Michael Sherry
- COR 202 - Rudy Edison
- COR 203 - Marco Harold
- COR 203R - Marco Harold
- COR 204
- COR 205
- COR 301 - Juan Brown
- COR 302 - Oscar Jones
- COR 303 - Jeremy Walker

The form includes fields for SCHEDULE DATE (05/06/24 Monday), SERVICE CODE, ORDER TYPE, QUANTITY, REQUESTED BY, CONTACT, REASON CODE, ORDER NOTES, PO NUMBER, BLANKET PO, and EXTERNAL ID. A 'PREPAYMENT' button is also visible. A 'CREATE' button is located at the bottom of the form.
