

Site Inventory (Accounts) - Trucks Not Displaying (16859)

Last Modified on 05/29/2024 2:25 pm EDT

The issue that prevented trucks from displaying on the Site Inventory screen for the site they were assigned has been resolved.

The screenshot shows a web application window titled "SITE INVENTORY". At the top, there are two tabs: "Equipment" with a red badge showing the number "8", and "Trucks" with a red badge showing the number "2". Below the tabs, there is a green plus icon and a checkbox labeled "Show Inactive". The main content area is a table with the following columns: "NAME" (with an upward arrow), "LICENSE PLATE", "LINE OF BUSINESS", "TRUCK TYPE", and "TARE WEIGHT". The table contains two rows of data:

NAME ↑	LICENSE PLATE	LINE OF BUSINESS	TRUCK TYPE	TARE WEIGHT
Example Truck	12U 9TG	Commercial	LARGE	
Truck 4		Roll Off		

Pathway: Customer Service Screen > Display Inventory (Icon, Site Details)
