

Database Query (Database)- New Fields Added to Work Order (17124)

Last Modified on 08/12/2024 8:40 am EDT

Two new options have been added to the Work Order entity's Database Query: Equipment Volume and Service Note.

The screenshot displays the 'Database Query' configuration interface. At the top, there is a 'SAVED QUERY' dropdown menu and three buttons: 'NEW', 'UPDATE', and 'SAVE AS'. A 'RUN' button is located on the far right. Below these are four main sections: 'ENTITIES', 'LIMIT / SORT', 'DISPLAY FIELDS', and 'FILTERS'. The 'ENTITIES' section shows 'Work Order' with a plus icon. The 'LIMIT / SORT' section has a 'ROW LIMIT' input field with a plus icon. The 'DISPLAY FIELDS' section includes a checkbox for 'Display Only Selected' and a table with the following data:

<input checked="" type="checkbox"/>	ENTITY	SEQ	FIELD	ALIAS	DESCRIPTION
<input checked="" type="checkbox"/>	Work Order	1	Equipment Volu...		
<input checked="" type="checkbox"/>	Work Order	2	Service Note		

The 'FILTERS' section contains an 'AND' dropdown menu, 'ADD GROUP' and 'ADD FILTER' buttons, and a minus icon.
