

Database Query (Database) - Updates to Display Fields for Revenue Query (17154,17105) [New Feature]

Last Modified on 09/09/2024 9:58 am EDT

The following updates have been applied to the Database Query:

1. *Account Name 2* and *Invoice Date* fields were added to the Revenue entity.
2. When adding a filter, the Column field includes search functionality and has also been updated to display in alphabetical order.

The screenshot displays the 'Database Query' interface. At the top, there is a 'SAVED QUERY' dropdown menu and three buttons: 'NEW', 'UPDATE', and 'SAVE AS'. A 'RUN' button is located on the far right. Below this, the interface is divided into several sections:

- ENTITIES:** Shows 'Revenue (Testing)' with a plus icon.
- LIMIT / SORT:** Includes a 'ROW LIMIT' input field with a plus icon.
- DISPLAY FIELDS:** A table with columns 'ENTITY', 'SEQ', 'FIELD', 'ALIAS', and 'DESCRIPTION'. It contains two rows: 'Testing' with '1' and 'Invoice Date', and 'Testing' with '2' and 'Account Name2'. A checkbox 'Display Only Selected' is checked.
- FILTERS:** Includes an 'AND' button, 'ADD GROUP', and 'ADD FILTER' buttons.

An 'ADD NEW FILTER' modal is open in the foreground. It has a title bar with a question mark and a close button. The modal contains a 'COLUMN' dropdown set to 'Applied Amount', a 'between' operator dropdown, and two empty input fields. At the bottom, there is a 'Negated' checkbox and a 'SAVE' button.
