

Dispatch (Operations) - Edit Route Updates for Disposal Records (15174)

Last Modified on 12/16/2024 6:49 am PST

The disposal record has been enhanced with the following features:

- **Edit Completed Disposal Tickets:** The ability to edit a disposal ticket for a route with a completed status.
- **Reassign Disposal Tickets:** The ability to reassign a disposal ticket to a different route, as illustrated in the image below.

The screenshot displays the 'EDIT DISPOSAL / SHIPMENT' interface. The main form includes fields for 'Route Disposal: LA 101', 'FACILITY: LA TRANSFER STATION', 'EXTERNAL TICKET #: 123', and 'STATUS: Completed'. A red arrow points to the 'Route Disposal' field. A modal window titled 'ASSOCIATE DISPOSAL TO ROUTE OR WORK ORDER' is open, showing a search bar with 'LA' and a table of routes. The table has columns for 'TYPE', 'VEHICLE', 'SITE / ACCOUNT', 'SERVICE INFO', and 'ADDITIONAL INFO'. The table lists three routes: 'Route: LA 101 - Mon 12/16/24 Scheduled', 'Route: LA 102 - Tue 12/17/24 Scheduled', and 'Route: LA 103 - Tue 12/17/24 Scheduled'. A 'SAVE (F2)' button is located at the bottom of the main form.
