Dispatch (Operations) - Updates to Context Menu Actions (17440)

Last Modified on 12/17/2024 12:48 pm PST

The following enhancements have been applied to the Dispatch screen:

Left and Right-Click Enhancements

Left-click anywhere within a row (that is not a link) and it will cause the selection of the row.

Right-click anywhere within a row and the following logic applies:

- If the row is already selected, the context menu is displayed.
- If the row is not already selected, all previous selections will be cleared, and only the right-clicked row will remain selected and the Context Menu displayed.

	 CORPUS > Commercial > Tuesday Dec 17, 2024

Select All / Deselect All Checkbox Indicator

An indicator will display based on the selection status of the check boxes:

- None selected: The box is empty.
- Some selected: A dash indicator is shown.
- All selected: A check mark is displayed.

Context Menu Updates

If multiple rows are selected, the Context Menu will display the number of selected rows along with the following new menu options:

- Display on Map
- Send Route Notification
- Optimize Routes
