

Route Management (Operations) - Export and Import Logic Updated (17856)

Last Modified on 02/19/2025 9:47 am PST

In the Route Management Current tab, the Import and Export logic for both format options (Navusoft and RouteSmart) has been updated to use Route ID instead of Route Name. To support this, Route ID was added to the Route Setup screen (Setup > Operations > Route) and the following changes were made to the Navusoft Format and RouteSmart Format:

- Navusoft Format
 - Addition of Route ID column to Export file
- RouteSmart Format
 - Addition of three new columns to Export file:
 - New Day, New Route and New Sequence

	SITE	QTY	SERVICE CODE	FREQ / NEXT SVC	ROUTE	SEQ	DOW
