

Database Query (Database) - New Field Added to the Work Order Entity (17911)

Last Modified on 02/20/2025 11:10 am PST

A new "Oncall Reason Code" field has been added to the Database Query, Work Order entity.

The screenshot shows the 'Database Query' configuration page. At the top, there is a 'SAVED QUERY' dropdown menu and three buttons: 'NEW', 'UPDATE', and 'SAVE AS'. Below this is the 'ENTITIES' section, which lists 'Work Order' with a green plus icon. The 'DISPLAY FIELDS' section is active, showing a table with columns: ENTITY, SEQ, FIELD, ALIAS, and DESCRIPTION. A checkbox labeled 'Display Only Selected' is checked. The table contains one row: 'Work Order' (checked), 1, 'Oncall Reason Code'. A red arrow points to the 'Work Order' checkbox in the table.

<input checked="" type="checkbox"/>	ENTITY	SEQ	FIELD	ALIAS	DESCRIPTION
<input checked="" type="checkbox"/>	Work Order	1	Oncall Reason Code
