## NavuNav (Android) - Hide/Display of Chat Icon in Driver App (17530)

Last Modified on 03/05/2025 11:35 am PST

Permission logic in the NavuNav app has been updated to control the visibility of the chat icon for drivers. The icon will only display if the driver has one of the four listed permissions. Permissions should be assigned based on who drivers should have chat access to.

Permission ID	Permission Name
368	Chat with Employees in my Department
369	Chat with Employees in Other Departments (excluding drivers and sales)
370	Chat with Drivers
371	Chat with Sales Reps
