

# NavuNav (Android) - Conversations Screen Not Displaying Users (18332,18873)

Last Modified on 07/23/2025 11:33 am PDT

An issue has been resolved that prevented users from appearing on the Conversation screen in the NavuNav (Android) driver app, preventing drivers from sending and receiving messages. Additionally, when a new message comes in, a sound will play and a message will display on the bottom of the screen.
