

# NavuNav (Android 6.6) - Logic Updated to Expand Availability of Disposal Entry (19518)

Last Modified on 12/09/2025 7:53 am PST

In previous versions of NavuNav (Android), the Disposal Entry option was only available once a work order was marked **Complete**. In version 6.6, this functionality has been expanded to also display for work orders with an **In Progress** status. Disposal Entry continues to display only for work types that require disposal.
