

NavuNav (Android) - Logic Updated to Expand Availability of Disposal Entry (19518)

Last Modified on 10/13/2025 9:19 am PDT

In previous versions of NavuNav (Android), the Disposal Entry option was only available once a work order was marked **Complete**. In version 6.6, this functionality has been expanded to also display for work orders with an **In Progress** status. Disposal Entry continues to display only for work types that require disposal.
