

Rate Update Batch (Sales) - Rate Update Batch Reversal Deleting Service Records and Not Resetting Scheduled-Through Date (19366)

Last Modified on 11/25/2025 12:20 pm PST

An issue was resolved where reversing a Rate Update Batch did not properly restore associated service schedule (route) records. This has been corrected, and service schedule records now return to their expected state when a Rate Update Batch is reversed.
