Equipment Maintenance - Equipment System
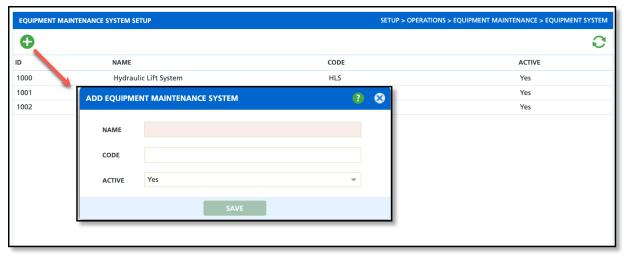

The **Equipment System Setup** screen lets you define the major systems of your equipment, such as hydraulic, compaction, engine, brake, or PTO systems. Entries made here are available in the Parts and Supplies tab when adding or editing an equipment maintenance order.

Add and Edit Equipment System

By default, Equipment Systems are active and only require a Name. When selecting a system to add to a maintenance order, only the Name is displayed.

Add

1. Select the green **Add icon** from the setup screen and the **Add Equipment Maintenance System** popup editor will display.
2. Enter a **Name** for the equipment system.
3. Enter a **Code** if one applies.
4. Click **Save** when finished.

Edit

1. From the setup screen, click the column you want to edit to open the field.
2. Click outside the field when finished, and your changes will be saved automatically.

ID	NAME	CODE	ACTIVE
1000	Hydraulic Lift System	HLS	Yes
1001	Compaction System	CS	Yes
1002	PTO System (Power Take-Off)	PTO	No

Add Equipment System to an Equipment Maintenance Order

The Equipment System option is available in the Parts & Supplies tab when adding or editing the Equipment Maintenance Order Parts and is a non-required field.

EDIT EQUIPMENT MAINTENANCE ORDER - 1009
