

Route Management (Operations) - Enhancement to View Site Notes, Access Note and Business Hours (18178)

Last Modified on 01/15/2026 11:32 am PST

An enhancement has been applied to the **Pending** and **Current** screens of **Route Management** to improve visibility of site notes, access notes, and business hours. If any of this information exists for a site, an asterisk is displayed after the site ID and the details are shown on hover.

The screenshot shows the 'Pending' tab of the Route Management interface. The top navigation bar includes icons for users, schedule, route, and settings. Below the navigation is a toolbar with buttons for Pending, Current, Renumber / Sequencing Stops, LOAD, EXPORT, and IMPORT. The main content area displays a list of stops with columns for SITE, QTY, SERVICE CODE, FREQ / NEXT SVC, and ROUTE. A 'Route Summary' button is also present. Red arrows point to the asterisk (*) next to site IDs 49312001 and 49312001, and to the 'Site Note', 'Access', and 'Business Hours' details for the stop at 285 Huntington Dr, Arcadia, CA 91007-3439.
