

Active Services (Accounts) - Vendor Site and Vendor Rate Missing After Rate Update Batch (20313)

Last Modified on 01/20/2026 12:51 pm PST

An update has been applied to ensure that **Vendor Site ID** and **Vendor Rates** are correctly carried forward when a rate update batch is released. Previously, after releasing a rate batch update, new site service records were created without the associated vendor site and vendor rate values.
