

Operations (Disposal Activity) - Disposal Records Not Limited When Single Division Selected (19855)

Last Modified on 01/21/2026 11:10 am PST

The Division filter has been updated to ensure disposal records are filtered based on the appropriate division. When a disposal ticket is associated to a work order, the filter is applied using the division associated to the site. When a disposal ticket is associated to a route, the filter is applied using the division associated to the disposal location or facility.
