

Facility (Setup / Operations) - Functionality Added to Support Origin-Based Fees (19946) [New Feature]

Last Modified on 02/10/2026 11:08 am PST

Edit Service Record

Pathway: [Operations](#) > [Inbound / Outbound](#) > [Inbound \[tab\]](#)

New logic has been added to automatically calculate and recalculate origin-based fees on Service Records when Net Weight, Material, or Origin information is entered or updated. To support this, a new Origin Fees tab has been added to Facility Setup, further detailed below.

Facility Setup

Pathway: [Setup](#) > [Operations](#) > [Facility](#)

To support the calculation of origin fees on inbound scale tickets, the Facility Setup screen has been updated to include an **Origin Fees** tab. To access the tab, select a facility in the upper grid; its tab set, including the new **Origin Fees** tab, will display in the lower grid. Select the tab to add new origin fees or edit existing ones.
