

User Activities (Accounts) - Task Details Not Populating When 0/# or #/0 (20527)

Last Modified on 03/10/2026 11:28 am PDT

The issue with the Task details section of the *Accounts > User Activities* not populating when the Tasks value is either 0/# or #/0 for a given user has been fixed.

When clicking on a Task value of 0/# or #/0, the history of tasks for that user are now displaying as expected.
