

Waste Profile Mgmt (Accounts) - Profiles with no material assigned are not displaying (20684)

Last Modified on 03/13/2026 1:20 pm PDT

When creating waste profiles, material type is not required. However, when attempting to view the Waste Profiles in *Accounts > Waste Profile Management*, the profiles with no material assigned were being excluded from the listing. This issue has been resolved and the waste profiles with no material are displaying when there is no filtering by Material.
