

# Site Inventory (Accounts) - Add Equipment Tare Weight/UOM Not Displaying (20845)

Last Modified on 04/15/2026 10:20 am PDT

The issue with the **Tare Weight** and **UOM** fields not displaying when adding to a Site Inventory for Serialized Equipment has been fixed. Both fields are correctly being displayed on the *Add Site Inventory* (serialized only) screen.

The screenshot shows a web form titled "ADD SITE INVENTORY" with a blue header bar. The form contains the following fields:

- EQUIPMENT TYPE**: A dropdown menu with "10 Yard Open Top" selected.
- SERIAL NUMBER**: A text input field with a red border, indicating it is required.
- OWNERSHIP**: A dropdown menu with "Customer" selected.
- LICENSE PLATE**: A text input field.
- RFID**: A text input field.
- EXTERNAL ID**: A text input field.
- TARE WEIGHT**: A text input field.
- UOM**: A dropdown menu.
- NOTE**: A large text area for additional information.

A green "SAVE" button is located at the bottom of the form.

Pathway: Account (Customer Service Screen) > Display Inventory (icon) > Equipment (tab) > Add (green + icon)
