

# Database Query (Database) - Fields Added to Active Services Query (20955)

Last Modified on 04/15/2026 12:18 pm PDT

The following fields have been added to the **Active Services** query in the Database Query tool:

- Last Completed Data
- Service Root Id
- Service Duration
- Site Old Id
- Siteservice External Id

The screenshot shows the 'Database Query' tool interface. At the top, there is a 'SAVED QUERY' dropdown menu and three buttons: 'NEW', 'UPDATE', and 'SAVE AS'. Below this is the 'ENTITIES' section, which lists 'Active Services' with a plus icon. The 'DISPLAY FIELDS' section is a table with a checkbox for 'Display Only Selected' on the right. The table has the following columns: ENTITY, SEQ, FIELD, ALIAS, and DESCRIPTION. The table contains five rows of data:

| <input checked="" type="checkbox"/> | ENTITY          | SEQ | FIELD ↑                 | ALIAS | DESCRIPTION |
|-------------------------------------|-----------------|-----|-------------------------|-------|-------------|
| <input checked="" type="checkbox"/> | Active Services | 1   | Last Completed Date     |       |             |
| <input checked="" type="checkbox"/> | Active Services | 5   | Service Duration        |       |             |
| <input checked="" type="checkbox"/> | Active Services | 2   | Service Root Id         |       |             |
| <input checked="" type="checkbox"/> | Active Services | 3   | Site Old Id             |       |             |
| <input checked="" type="checkbox"/> | Active Services | 4   | Siteservice External Id |       |             |
