

Permissions (Setup / System) - New Permission 'Configure Scale Workstation' Added (18647)

Last Modified on 04/28/2026 9:54 am PDT

Permission 482 (Configure Scale Workstation) has been added to Permission Setup. Users with this permission can add and edit within Scale Workstation Configuration. Users without this permission will have view-only access.

By default, in the Permissions tab of Role Setup, any new permission is set to an Authorization Status of "New" and must be manually changed to "Authorized" before it takes effect.

The screenshot shows a software interface with a top navigation bar and a main content area. The top bar includes 'INBOUND / OUTBOUND' and 'OPERATIONS >'. Below this, there's a 'FACILITY' section with a dropdown menu set to 'LA TRANSFER STATION', a status dropdown set to 'In Progress', and a text field '49113001 Matthew Load Master'. Two green buttons are visible: 'TARE TRUCK OR EQUIPMENT' and 'CONFIGURE SCALE WORKSTATION', with the latter highlighted by a red box and a red arrow pointing to it. Below the buttons are tabs for 'Inbound', 'Outbound', 'History', and 'Daily Totals'. The main content area has a table with columns: 'ORDER #', 'DATE ↑', 'VEHICLE', 'ACCOUNT / SITE', 'TRANSPORT INFO', 'SERVICE INFO', 'MATERIALS / ADJUSTMENTS', 'WEIGHT', 'ADDITIONAL INFO', and 'PAYMENT'. A 'PERMISSION SETUP' dialog box is open, showing a search for 'scale workstation' and a table with the following data:

PERMISSION ID	NAME	DESCRIPTION	MODULE	DOCUMENTATION TOPICS	DOCUMENTATION VIEW SCORE
482	Configure Scale Workstation		Operations	0	

Pathway: Setup > System > Permission
