

Database (Database Query) - Add 2 Fields to Active Services Entity (21456)

Last Modified on 05/21/2026 2:13 pm PDT

The following fields have been added to the Active Services entity in the Database Query tool:

1. External Reservation Number
2. External Contract Number

The screenshot displays the Database Query tool interface for the 'Active Services' entity. The 'DISPLAY FIELDS' section lists 8 fields, with 'External Reservation Number' (seq 1) and 'External Contract Number' (seq 2) highlighted with red circles. The 'FILTERS' section contains two filter rules: 'Not Active Services - External Contract Number is null' and 'Not Active Services - External Reservation Number is null'. Below the configuration, a table shows 6 records with columns for various service attributes.
