

Service Record (Accounts) - Order Type Drop-Down Improvement (21552)

Last Modified on 06/10/2026 1:00 pm PDT

The **Order Type** drop down when creating an On Call Order has been improved to display the work types in alphabetical order.

The screenshot shows a web application interface for creating an on-call order. The form is titled "CREATE ON CALL ORDER" and includes several input fields and a dropdown menu. The "ORDER TYPE" dropdown is open, showing a list of work types sorted alphabetically. A red arrow points to the top of the list, and a red 'Z' is placed next to the bottom of the list to indicate the alphabetical sorting.
