

# AR History (Account) - Restored Envelope Icon When Emailing/Printing Single Invoice (21404)

Last Modified on 06/12/2026 11:45 am PDT

We resolved an issue introduced in v79 where the red envelope icon stopped appearing after a single invoice was emailed or printed from the AR History screen. While this issue did not affect the actual sending or printing of invoices, we know the visual indicator is very helpful to your workflow.

Now, right-clicking to email or print a single invoice from the AR History screen will once again trigger a red envelope icon, indicating the action was complete but the invoice in the email has not yet been opened. Once opened, the red envelope will transition to green as expected.

The screenshot displays the AR History interface for account 59950001. The account is active and located at 600 N Shepherd Dr, Houston, TX 77007-1323. The account manager is Aliena Somers - Admin-NS (Sales). The account is on a Net 15 terms, and the invoice delivery method is 'Email with Link'. The account is billed monthly through August 31, 2026. The account balance is -75.15. The interface shows a list of active services and a calendar for June 2026. The AR History table shows two invoices: one for 243.61 (Invoice) and one for 114.40 (Payment - Mastercard - Credit Card). A context menu is open over the payment invoice, showing options: View Details / Adjust Invoice, Add Account Request, Email, Edit PO Number on Invoice Detail, and Print. A red arrow points to the 'Email' option in the context menu.
