

Customer Service (Accounts) - Updating a Vacation Hold Site No Longer Updates Account Status

Last Modified on 07/17/2026 11:50 am PDT

The issue where editing the site details of a **Vacation Hold** site triggered the system to automatically update the status of the Account to **Credit Hold** has been fixed. The account status is no longer affected when changes are made to a Vacation Hold site.

In addition, the **Account Mgr** at the **Account** level is now automatically updated to match the **Site's Sales Rep** when all sites on the account have the same **Sales Rep**. Previously, this behavior only applied to single-site accounts and has now been extended to multi-site accounts.
