

Database Query (Database) - Scale Record History: Add Scale Volume Data (21742)

Last Modified on 08/21/2026 2:37 pm PDT

Volume fields for the Weights - Scale values on an Inbound / Outbound ticket have been added to the **Scale Record History** query. This data will provide users the ability to track, report, and export volume and weight for scale records.

The image shows two screenshots from a software application. The top screenshot displays the 'Scale Record History' query results, and the bottom screenshot shows the 'EDIT INBOUND / RECEIVING' ticket details.

Scale Record History Query Results:

The query results table shows 23 records. The columns include ACCOUNT NAME, DIVISION NAME, FACILITY NAME, SITE ID, SITE NAME, TICKET NUMBER, TRANSPORTER NAME, TRUCK NAME, VOLUME, VOLUME UOM NAME, VOLUME UOM ID, and WORKORDERNUMBER. A red box highlights the 'VOLUME', 'VOLUME UOM NAME', and 'VOLUME UOM ID' columns. A red arrow points to the 'RUN' button in the top right corner of the query interface.

EDIT INBOUND / RECEIVING - TICKET NUMBER: 42153 - WORK ORDER: 11269230
