

Database Query - Disposal Origin Entity

Last Modified on 09/11/2026 7:39 am PDT

Pathway: Database > Database Query

The **Disposal Origin** entity provides the ability to track, report and export disposal data with regards to route, vehicle, volume, and weight for scale records.

The screenshot displays the 'Database Query' interface. At the top, there is a 'SAVED QUERY' dropdown menu and three buttons: 'NEW', 'UPDATE', and 'SAVE AS'. A 'RUN' button is located on the right. Below these are two tabs: 'ENTITIES' and 'LIMIT / SORT'. The 'LIMIT / SORT' tab is active, showing a 'ROW LIMIT' input field. A 'DISPLAY FIELDS' section is visible, containing a table with columns: ENTITY, SEQ, FIELD, and ALIAS. A 'SELECT MAIN ENTITY' popup is open, showing 'ENTITY' set to 'Disposal Origin' and an empty 'ALIAS' field. A 'SAVE' button is at the bottom of the popup.

Initiating a Disposal Origin Query

To generate a **Disposal Origin** report using the Database Query tool, follow the steps outlined below. Reference the [Database Query](#) article for more details on how to use the tool for reporting.

1. Go to the *Database > Database Query* screen.
2. Click the **New** button in the top control bar. This will open the **Select Main Entity** popup.
3. Select **Disposal Origin**.
4. After the **Display Fields** for the **Disposal Origin** entity populate, select the check boxes for the fields you want to include in the report.
 - If a specific order is required, select the fields in the order you want them to appear in the query.
5. Click **Run** to execute the query. Results are generated in a new tab with the date and timestamp.

Columns Available for Display

The following data can be pulled in when running a Disposal Origin report.

Field Name	Description
Disposal and Origin Information	

Field Name	Description
Disposal Date	Date when the material was delivered to or processed at the disposal location.
Disposal Status	Current processing status of the disposal transaction or ticket.
Disposal Location Id	Unique ID for the disposal facility or processing location.
Disposal Location Name	Name of the disposal facility or processing location.
Disposal UOM Id	Unique ID for the unit of measure used to record disposal quantities.
Disposal UOM Name	Name of the unit of measure used for disposal quantities, such as pounds or tons.
Origin Id	Unique ID for the source location from which the material originated.
Origin Name	Name of the customer site or source location where the material originated.
Origin Net Weight	Net weight of material attributed to the originating location.
Origin Percentage	Percentage of the total disposal load attributed to the originating location.
Operations and Work Details	
Service Region Id	Unique ID for the geographic or operational service region.
Service Region Name	Name of the geographic or operational service region.
Ticket Number	Ticket or scale transaction number associated with the disposal event.
Work Order Number	Work order number associated with the disposal ticket.
Work Type Id	Unique ID for the type of work performed or recorded.
Route and Vehicle Information	
Route Id	Unique ID for the collection route associated with the transaction.
Route Name	Name of the route on the disposal ticket.
Route Record ID	Unique ID for the route associated to the disposal ticket.
Truck ID	Unique ID for the truck or vehicle used for the service.
Truck Name	Name, number, or fleet designation of the truck used for the service.
Truck Type	Classification of the truck or vehicle used for the service.
Vehicle Info	Additional vehicle information recorded for the disposal.
Weight, Volume, and Material	
Gross Weight	Total weight of the loaded vehicle, including the vehicle and material.
Tare Weight	Weight of the empty vehicle used to calculate the net material weight.
Total Net Weight	Total material weight after subtracting tare weight from gross weight.

Field Name	Description
Volume	Measured volume of material recorded for the disposal transaction.
Volume UOM ID	Unique ID for the unit of measure used to record volume.
Volume UOM Name	Name of the unit of measure used for volume, such as cubic yards.
Material Class Name	Broad classification of the material being disposed of.
Material Type Id	Unique ID for the specific type of material associated to the material recorded on the disposal ticket.
Material Type Name	Specific material type associated with the disposal load.
Recyclable	Indicator showing whether the material is classified as recyclable.
Customer and Billing Information	
Account Id	Unique ID for the customer account associated with the disposal transaction.
Account Name	Name of the customer account associated with the service or disposal activity.
Account Class Id	Unique ID for the customer account classification.
Account Class Name	Classification of the customer account, such as residential, commercial, or cash customer.
Bill Group Id	Unique ID for the billing group associated with the account.
Bill Group Name	Name of the billing group associated with the account or service.
Billing Address Line1	Primary billing street address for the customer account.
Billing Address Line2	Additional billing address information, such as a suite or unit number.
Billing City	City associated with the customer billing address.
Billing Postal Code	Postal code associated with the customer billing address.
Billing State	State or province associated with the customer billing address.
Service Site Information	
Site Id	Unique ID for the service site where the material was collected.
Site Name	Name of the physical service location.
Site Address Line1	Primary street address of the service site.
Site Address Line2	Additional service site address information, such as a suite or unit number.
Site City	City where the service site is located.
Site County	County or local jurisdiction where the service site is located.
Site Postal Code	Postal code for the service site.
Site State	State or province where the service site is located.

Field Name	Description
Site Class Id	Unique ID for the service site classification.
Site Class Name	Classification of the service site based on its operational or customer characteristics.
